Covid patients provided televisits. COVID testing is not performed in our office but is helpful for treatment guidance and recommended if suspected. Treatment tailored to age, history and not solely dependent on active symptoms. Prevention of later complication is a critical element of our approach. We also give early supportive care to symptomatic individuals on a case-by-case basis. No insurance

accepted as payment though we provide paperwork and online data for filing.

Our physician is an MD with over 25 years of experience and is a practitioner of Functional Medicine. We are located in Johns Island, SC and provide in-person care at this location. We also offer telemedicine appointments to patients statewide throughout South Carolina and Virginia. We can provide consultations on COVID-19 from a Functional Medicine perspective. We may prescribe Ivermectin, provided it is not contraindicated for the patient. In addition, we can recommend certain vitamins and supplements to help boost the immune system. Patients may call 843-996-4908 for details and to set up a telemedicine appointment.

Other states where licensed: South Carolina
